**CUSTOMS DUTIES AND CONSUMPTION TAX (COMMUNITY ORIGIN) REGULATIONS –
SECTION 23**

(S.R.O. 32/2004)

Commencement

[5 July 2004]

Short title

1. These Regulations may be cited as the Customs Duties and Consumption Tax (Community Origin) Regulations.

Application

2. These Regulations shall govern the determination required under section 12 of the Customs Duties and Consumption Tax Act, as to whether goods are eligible for Caribbean Community rate of duty, whether goods are or are not to be treated as a Caribbean Community Origin, and the evidence which is to be required or is to be sufficient for the purpose of showing that goods are not to be so treated.

Goods to be treated as having been produced or manufactured in the common market

3. Subject to the provisions of this regulation, goods that have been consigned from one Member State to a consignee in another Member State shall be treated as being of Community origin, where the goods—

- (a) have been wholly produced within the Community; or
- (b) have been produced within the Community wholly or partly from materials imported from outside the Community or from materials of undetermined origin by a process which effects a substantial transformation characterized—
 - (i) by the goods being classified in a tariff heading different from that in which any of those materials is classified; or
 - (ii) in the case of the goods set out in the List in Schedule I to the Treaty (hereinafter referred to as “**the List**”), only by satisfying the conditions therefore specified.

Repair, revocation and improvement within the Caribbean Community market

4. Goods that have been consigned from one Member State to a consignee in another Member State for repair, renovation or improvement shall, on their return to the Member State from which they were exported, be treated for the purpose of re-importation only, in like manner as goods which are of Community origin, provided that, the goods are re-consigned directly to that Member State from which they were exported and the value of materials imported from outside the Community or of undetermined origin which have been used in the process of repair, renovation or improvement does not exceed—

- (a) in the case where the goods have undergone the process of repair, renovation or improvement in a More Developed Country, 65 per cent of the cost of repair, renovation or improvement;
- (b) in the case where the goods have undergone the process of repair, renovation or improvement in a Less Developed Country, 80 per cent of the cost of repair, renovation or improvement.

Safeguard provisions

5. Where there is an interruption or inadequacy of supplies of regional materials and the manufacturer of goods, for which the qualifying condition for Community origin is that of “wholly produced” or “produced from regional materials”, is unable by reason of circumstances beyond his control to obtain supplies of the regional materials, he shall so inform the competent authority.

Competent authority

6. The competent authority shall—

- (a) after receipt of information from the manufacturer, cause investigations to be made into the matter, and if he is satisfied that the representation from the manufacturer is justified, submit to the Secretary-General in the prescribed instrument an application for a certificate provided for in this Article;
- (b) at the time of making the application, inform the other Member States of the inability of the manufacturer to obtain the supplies of the required materials from within the Community with respect to quantities and specifications of the materials sought and the period during which the materials are required.

Application from competent authority

7. The Secretary-General shall, on receipt of the application from the competent authority—

- (a) forthwith make the relevant enquiries by the quickest possible means from the competent authorities in the other Member States as to their ability to supply the materials required by the manufacturer; and
- (b) request a reply to the enquiry from each competent authority within seven calendar days of the dispatch of his enquiry.

Enquiry

8. A competent authority shall reply to the enquiry referred to in regulation 7 within the time specified.

Application

9. Where the Secretary-General, on the basis of his investigations is satisfied that the application received from the competent authority justifies favourable consideration, he shall, notwithstanding that he may not have received a reply to his

enquiry from one or more Member States, within fourteen calendar days after the receipt of the application from the competent authority, issue, on behalf of COTED, a certificate to the competent authority authorising the use of like materials from outside the Community, subject to such conditions as he may think fit to impose.

Issue of certificate

10. The Secretary-General shall inform the Member States of the issue of his certificate, including any conditions attaching thereto and that notwithstanding anything to the contrary in the provisions of this Article, goods manufactured from like materials imported from outside the Community shall be deemed to be of Community origin.

Imports

11. A Member State may treat as of Community origin any imports consigned from another Member State, provided that, the like imports consigned from any other Member State are accorded the same treatment. Member States concerned shall promptly inform COTED of any trading arrangements concluded pursuant to this paragraph and COTED may, as it thinks fit, recommend to the Member States concerned the adoption of alternative trading arrangements.

Schedule I to apply

12. The provisions of Schedule I shall apply to and have effect for the purposes of this Article. COTED shall keep the Schedule and, in particular, the List under continuous review, and may amend the Schedule in order to ensure the achievement of the objectives of the Community.

Report of issue of certificate

13. The issue of a certificate in accordance with regulation 7 shall be reported by the Secretary-General to COTED at the Meeting of COTED next following the date of issue thereof.

(a) RULES REGARDING COMMUNITY ORIGIN

For the purpose of determining the origin of goods under Article 84 of the Treaty and for the application of that Article and the List, the following Rules shall be applied.

RULE 1 - INTERPRETATIVE PROVISIONS

1. In determining the place of production of marine products and goods produced therefrom, vessel of a Member State shall be regarded as part of that State. In determining the place from which goods have been consigned, marine products taken from the sea or goods produced therefrom at sea shall be regarded as having been consigned from a Member State if they were taken by or produced in a vessel of a Member State and have been brought direct to the Community.

2. For the purpose of these Rules a vessel shall be treated as a vessel of a Member State only if—

- (a) it is registered in a Member State;
- (b) it carries a complement (inclusive of the Master thereof) of which not less than three-fourths are nationals of Member States; and
- (c) it is majority owned and operated by—
 - (i) nationals of Member States, or
 - (ii) a Government of a Member State, or
 - (iii) a statutory Corporation of a Member State.

In this paragraph nationals of Member States shall have the same meaning as in paragraph 5 of Article 32 of this Treaty.

3. “**Materials**” includes raw materials, intermediate products, parts and components used in the process of production, repair, renovation or improvement of the goods.

4. Energy, fuel, plant, machinery and tools used in the production, repair, renovation or improvement of goods within the Community and materials used in the maintenance of such plant, machinery and tools, shall be regarded as wholly produced within the Community when determining the origin of these goods.

5. Goods other than those to which paragraph 1 of Rule 2 of these Rules applies shall not be treated as being of Community origin if they are produced by any operation or process which consists only of one or more of the following, whether or not there is a change of tariff heading—

- (a) operations to ensure the preservation of goods during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solution, removal of damaged parts, and like operations);
- (b) simple operations consisting of removal of dust, sifting or screening, sorting, grading, classifying, matching (including the making up of sets of articles), washing, painting and cutting up resulting in the mere reduction in size;
- (c) (i) changes of packing;
(ii) simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards and other simple packing operations;
- (d) affixing marks, labels or other like distinguishing signs on goods or their packaging;
- (e) simple mixing of materials imported from outside the Community or of undetermined origin if the characteristics of the goods as a whole are not essentially different from the characteristics of the materials which have been mixed;
- (f) operations which consist solely of welding, soldering, fastening, riveting, bolting and like operations, or otherwise putting together of all finished parts or components to constitute a finished product.

6. “**Chapter**” and “**tariff heading**” in article 84 or in this Schedule shall mean the Chapters and headings of the Harmonised Commodity Description and Coding System.

7. For the purpose of paragraph 5(f), the expression “finished parts or components” refers to those articles which are imported into the Community in a form or condition which does not require any further fabrication, change in shape or form, resulting in a change in identity or use or the application of permanent protective/decorative coating for the purposes of incorporation in the finished product.

8. Paragraphs 5(f) and 7 in this Rule shall take effect one year after the entry into force of the amendment of this Schedule, pursuant to the decision of the Council at its Special Meeting in July 1990.

RULE 2 - GOODS WHOLLY PRODUCED WITHIN THE COMMUNITY

1. The expression “wholly produced” when used with reference to goods means:
 - (i) mineral products extracted from the ground within the Community;
 - (ii) vegetable products harvested within the Community;
 - (iii) live animals born and raised within the Community;
 - (iv) products obtained within the Community from live animals;
 - (v) products obtained by hunting or fishing conducted within the Community;
 - (vi) marine products taken from the sea by a vessel of a Member State;
 - (vii) goods produced within the Community exclusively from one or both of the following—
 - (a) goods referred to in sub-paragraphs (a) to (f) and (h) and (i) of this paragraph;
 - (b) goods containing no materials imported from outside the Community or of undetermined origin, or containing those materials but which would not be regarded as such under paragraph 1 of Rule 3;
 - (viii) and shall be taken to include—
 - (a) used articles fit only for the recovery of materials provided that they have been collected from users within the Community;
 - (b) scrap and waste resulting from manufacturing operations within the Community.

2. Wherever in paragraph 1 of Article 84 of this Treaty goods are required to be wholly produced, the use of small quantities of preservatives, vitamins, colouring and similar materials imported from outside the Community or of undetermined origin shall not affect their eligibility for Community treatment as wholly produced.

RULE 3 - APPLICATION OF THE CRITERION
OF SUBSTANTIAL TRANSFORMATION

1. Where materials containing any element imported from outside the Community meet the conditions specified in Article 84, those materials shall be regarded as containing no such element.

2. For the purpose of Article 84—

- (i) the value of any materials imported from outside the Community shall be the customs value determined for them by the Customs Authority in the Member State where they were used in a process of production, less the amount of any transport costs incurred in transit through other Member States;
- (ii) if the origin of any materials cannot be determined, such materials shall be deemed to have been imported from outside the Community;
- (iii) the export price of the goods shall be the value accepted for this purpose by the Customs Authority in the Member State in which they were produced. It shall be based, *mutatis mutandis*, on the provision set out in paragraph 4(a), but shall not include the amounts of transport and insurance costs incurred after the exportation of the goods.

3. In the application of the List the conditions to be complied with other than a percentage value-added condition applicable to any goods shall be fulfilled in respect of the whole of the goods, excluding any packing.

4. The expressions appearing in the columns headed “conditions to be complied with” in the List and set out below shall be applied in the following manner—

- (i) **“produced from regional materials of”** - the materials falling within the tariff headings or Chapters named may be used only if they qualify to be treated as of Community origin within the meaning of Article 84. This does not preclude the use of regional materials in an earlier stage of production;
- (ii) **“produced from materials of”** and **“produced from”** - the materials named or designated as the case may be must be used in the condition in which they are described. This does not preclude the use of the materials in an earlier stage of production;
- (iii) **“produced from materials not included in”** - the materials which fall in the tariff headings named may not be used if they are imported from outside the Community or are of undetermined origin;
- (iv) **“extra-regional materials”** shall mean materials imported from outside the Community or of undetermined origin;
- (v) **“chemical transformation”** shall mean the forming of the molecule of the finished product by—
 - (a) the combination of two or more elements; or

- (b) any modification of the structure of the molecule of a compound with the exception of ionisation and the addition or removal of water of crystallisation.

RULE 4 - UNIT OF QUALIFICATION

1. Each article in a consignment shall be considered separately.
2. For the purposes of paragraph 1 of this Rule—
 - (i) where the Harmonised Commodity Description and Coding System specifies that a group, set or assembly of articles is to be classified within a single heading, such a group, set or assembly shall be treated as one article;
 - (ii) tools, parts and accessories which are imported with an article, and the price of which is included in that of the article or for which no separate charge is made, shall be considered as forming a whole with the article, provided that they constitute the standard equipment customarily included on the sale of articles of that kind;
 - (iii) in cases not within sub-paragraphs (i) and (ii), goods shall be treated as a single article if they are so treated for purposes of assessing Customs Duties by the importing Member State.
3. An unassembled or disassembled article which is imported in more than one consignment because it is not feasible for transport or production reasons to import it in a single consignment shall, if the importer so requests, be treated as one article.

RULE 5 - SEGREGATION OF MATERIALS

1. For those products or industries where it would be impracticable for the producer physically to segregate materials of similar character but different origin used in the production of goods, such segregation may be replaced by an appropriate accounting system, which ensures that no more goods received Community tariff treatment, than would have been the case, if the producer had been able physically to segregate the materials.
2. Any such accounting system shall conform to such conditions as may be agreed upon by Member States concerned in order to ensure that adequate control measures will be applied.

RULE 6 - TREATMENT OF REPAIRED GOODS

1. For the purposes of paragraph 4 of Article 84 goods shall be treated as having undergone a process of repair, renovation or improvement if the performance of such process within the Community does not result in a change of the form or character of the goods.
2. The cost of repair, renovation or improvement shall refer to the cost of all materials which are used plus the costs involved in effecting the repair, renovation or improvement, excluding freight, other transport charges, insurance and other shipping costs.

RULE 7 - TREATMENT OF PACKING

1. Where for purposes of assessing Customs Duties a Member State treats goods separately from their packing, it may also, in respect of its imports consigned from another Member State, determine separately the origin or such packing.
2. Where paragraph 1 of this Rule is not applied, packing of any sort shall be considered as forming a whole with the goods for the purposes only of the application of percentage value-added conditions. No part of any packing required for the transport or storage of goods shall be considered as having been imported from outside the Community when determining the origin of the goods as a whole.

RULE 8 - DOCUMENTARY EVIDENCE

1. A claim that goods shall be accepted as eligible for Community tariff treatment shall be supported by appropriate documentary evidence of origin and consignment. The evidence of origin shall consist of a certificate given by a Governmental authority or authorised body nominated by the exporting Member State and notified to the other Member States together with a declaration completed by the exporter of the goods.
2. The Governmental authority or the authorised body shall obtain a declaration as to the origin of the goods given by the last producer of the goods within the Community. The authority or body shall satisfy themselves as to the accuracy of the evidence provided; where necessary they shall require the production of additional information, and shall carry out any suitable check. If the authorities of the importing Member State so require, a confidential indication of the producer of the goods shall be given.
3. Nominations of authorised bodies for the purpose of this Rule may be withdrawn by the exporting Member State if the need arises. Each Member State shall retain, in regard to its imports, the right of refusing to accept certificates from any authorised body which is shown to have repeatedly issued certificates in an improper manner, but such action shall not be taken without adequate prior notification to the exporting Member State of the grounds for dissatisfaction.
4. In cases where the Member States concerned recognise that it is impracticable for the producer to make the declaration of origin specified in paragraph 2 of this Rule, the exporter may make that declaration in such form as those Member States may for the purpose specify.

The certificate and declaration provided for in this Rule shall be in the form prescribed by COTED from time to time.

COTED may decide that further or different provisions concerning evidence of origin or of consignment shall apply to particular categories of goods or classes or transactions.

RULE 9 - VERIFICATION OF EVIDENCE OF ORIGIN

1. The importing Member State may as necessary require further evidence to support any declaration or certificate of origin furnished under Rule 8.

2. The importing Member State shall not prevent the importer from taking delivery of the goods solely on the grounds that it requires such further evidence, but may require security for any duty or other charge which may be payable; provided that where goods are subject to any import restrictions or prohibitions, the stipulation for delivery under security shall not apply.

3. Where, under paragraph 1 of this Rule, a Member State has required further evidence to be furnished, those concerned in another Member State shall be free to produce it to a Governmental authority or an authorised body of the latter State, who shall, after thorough verification of the evidence, furnish an appropriate report to the importing Member State.

4. Where it is necessary to do so by reason of its legislation, a Member State may prescribe that requests by the authorities of importing Member States for further evidence from those concerned in the Member State shall be addressed to a specified Governmental authority, who shall after thorough verification of the evidence furnish an appropriate report to the importing Member State.

5. If the importing Member State wishes an investigation to be made into the accuracy of the evidence which it has received it may make a request to that effect to the other Member State or States concerned.

6. Information obtained under the provisions of this Rule by the importing Member State shall be treated as confidential.

RULE 10 - APPLICATION OF THE SAFEGUARD MECHANISM

1. The information required pursuant to paragraph 4 of Article 84 shall be rendered in writing and shall be such as the Competent Authority may require.

2. For the purposes of carrying out his investigations, the Secretary-General may seek such additional information as he considers to be relevant. Replies to the enquiries by the Secretary-General should be sent by telex, telefax or other similar means of communication.

3. The Competent Authority shall ensure that no more extra-regional materials are used in production for purposes of Common Market treatment than are authorised by the Secretary-General. The Competent Authority shall make available to the Governmental authority or authorised body nominated for his State under paragraph 1 of Rule 8 such information as may be necessary for this purpose.

4. The Member States agree to cooperate fully with the Secretary-General in the foregoing provisions of this Rule.

RULE 11 – SANCTIONS

1. Member States undertake to introduce legislation, making such provision as may be necessary for penalties against persons who, in their State, furnish or cause to be furnished a document which is untrue in a material particular in support of a claim in another Member State that goods should be accepted as eligible for Community tariff treatment. The penalties applicable shall be similar to those applicable in case of untrue declarations in regard to payment of duty on imports.

2. A Member State may deal with the offence out of court, if it can be more appropriately dealt with by a compromise penalty or similar administrative procedure.

A Member State shall be under no obligation to institute or continue court proceedings, or action under paragraph 2 of this Rule:

- (i) if it has not been requested to do so by the importing Member State to which the untrue claim was made; or
- (ii) if, on the evidence available, the proceedings would not be justified.

CHAPTER 17.05

CUSTOMS DUTIES (DUMPING AND SUBSIDIES) ACT

(Act 12 of 1959 and Act 9 of 2011)

Commencement

[27 October 1961]

Short title

1. This Act may be cited as the Customs Duties (Dumping and Subsidies) Act.

Interpretation

2. In this Act—

“**fair market price**” means the price determined in accordance with the provisions of section 9;

“**General Agreement on Tariffs and Trade**” means the agreement concluded at Geneva in 1947;

“**importer**”, in relation to any goods at any time between their importation and the time they are delivered out of customs charge, includes any owner or other person for the time being possessed of or beneficially interested in the goods.

Cases where customs duties may be imposed

3. (1) Where it appears to the Governor, acting on the advice of the Cabinet—

- (a) that goods of any description are being or have been imported into Montserrat in circumstances in which they are under the provisions of this Act to be regarded as having been dumped; or
- (b) that some Government or other authority outside Montserrat has been giving a subsidy affecting goods of any description which are being or have been imported into Montserrat, and that, having regard to all the circumstances it would be in the interest of Montserrat,

he may exercise the power conferred on him by this Act to impose and vary duties of customs in such manner as he thinks necessary to meet the dumping or the giving of the subsidy:

Provided that, where the Governor acting on the advice of Cabinet is not satisfied that the effect of the dumping or of the giving of the subsidy is such as to cause or threaten material injury to an established industry in Montserrat or is such as to retard materially the establishment of an industry in Montserrat, the Governor acting on the advice of Cabinet shall not exercise that power if it appears to him that to do so would conflict with the provisions for the time being in force of the General Agreement on Tariffs and Trade.

(Amended by Act 9 of 2011)

(2) For the purposes of this Act, imported goods shall be regarded as having been dumped—

- (a) if the export price from the country in which the goods originated is less than the fair market price of the goods in that country; or
- (b) in a case where the country from which the goods were exported to Montserrat is different from the country in which they originated—
 - (i) if the export price from the country in which the goods originated is less than the fair market price of those goods in that country; or
 - (ii) if the export price from the country from which the goods were so exported is less than the fair market price of those goods in that country.

(3) References in this Act to giving a subsidy are references to giving, directly or indirectly, a bounty or subsidy on the production or export of goods (whether by grant, loan, tax relief or in any other way and whether related directly to the goods themselves or to materials of the goods or to something else) and shall include—

- (a) the giving of any special subsidy on the transport of a particular product; and
- (b) the giving of favourable treatment to producers or exporters in the course of administering any governmental control over the exchange of currencies where such treatment has the effect of assisting a reduction of the prices of goods offered for export,

but do not include the application of restrictions or charges on the export of materials from any country so as to favour producers in that country who use those materials in goods produced by them.

Order imposing duties

4. (1) The power which the Governor, acting on the advice of the Cabinet, may exercise under this Act is a power by order to impose on goods of a description specified in the order a duty of customs chargeable on the import of the goods into Montserrat at a rate specified in the order. *(Amended by Act 9 of 2011)*

(2) The matters by reference to which the description of goods in an order is framed shall include either the country in which the goods originated or the country from which the goods were exported to Montserrat.

(3) Subject to the provisions of subsection (2), an order under this section may include such provisions with respect to the description of the goods chargeable with duty and with respect to the cases in which duty is chargeable as may appear to the Governor, acting on the advice of the Cabinet, to be required for the purposes of this Act, and in particular—

- (a) provisions limiting the description of the goods by reference to the particular persons or organisations by whom the goods were produced or who were concerned with the production of the goods in some specified manner;
- (b) provisions defining the rate of duty by reference to value or weight or other measure of quantity;
- (c) provisions directing that duty be charged for any period or periods whether continuous or not, or without any limit of period, or at different rates for different periods or parts of periods; and
- (d) in connection with the commencement, variation or termination of a duty, provisions authorising repayments in

respect of duty where it is shown that the prescribed conditions are fulfilled.

(Amended by Act 9 of 2011)

(4) Any duty chargeable under this Act on any goods shall be chargeable in addition to any other duty of customs for the time being chargeable thereon, and notwithstanding the provisions of any other law for the time being in force in Montserrat, the charge of duty under this Act shall not affect liability to customs duty chargeable under any other Act or the amount of any such duty.

Relief in respect of duties

5. (1) Where it appears to the Governor, acting on the advice of the Cabinet, that relief under this section should be available as respects a duty imposed by an order under this Act (being an order made to afford protection against dumping) he may, if he thinks fit, in that or a subsequent order under this Act apply the provisions of this section in relation to the duty. *(Amended by Act 9 of 2011)*

(2) Where this section applies in relation to any duty, the importer of any goods chargeable with the duty as being goods originating in or, as the case may be, exported from a specified country may apply to the Governor, acting on the advice of the Cabinet, for relief from the duty on those goods. *(Amended by Act 9 of 2011)*

(3) If on an application so made the Governor, acting on the advice of the Cabinet, is satisfied that the export price of the goods from that country with the amount of the duty added to it exceeds the fair market price of the goods in that country, the Governor acting on the advice of Cabinet shall cause the Comptroller of Customs and Excise to be notified of the amount of the excess, and the Comptroller of Customs and Excise shall remit or repay the duty up to that amount. *(Amended by Act 9 of 2011)*

(4) An application under this section as respects any goods shall not be made more than six months after the duty has been paid on the goods, and in connection with any such application the applicant shall furnish such information and evidence as the Governor, acting on the advice of the Cabinet, may require from him for ascertaining the said export price or fair market price. *(Amended by Act 9 of 2011)*

(5) The foregoing provisions of this section shall have effect in relation to a duty imposed by an order under this Act (being an order made to afford protection against the giving of a subsidy) as if references to the fair market price in a country were references to the export price from that country increased by such amount (if any) as may be necessary to offset the effect of the giving of the subsidy.

(6) If a person for the purposes of an application under this section—

(a) makes any statement which is false in a material particular;

or

- (b) produces any account, estimate, return or other document which is false in a material particular,

the amount of any duty remitted or repaid under this section on the application shall be recoverable as a debt due to the Crown and if the statement was made or the document was produced knowingly or recklessly that person shall be liable on summary conviction to imprisonment for a term of three months or to a fine not exceeding \$500.

Drawback, etc., of duties

6. (1) The Governor, acting on the advice of the Cabinet, may by order provide for the allowance of drawback in respect of all or any duties under this Act on the export of goods in such circumstances and subject to such conditions as he may specify.

(2) The drawback may be in respect of duty paid on the goods or in respect of duty paid on materials used in the manufacture of the goods and the rate of the drawback may be determined in such manner and by reference to such matters as the Governor, acting on the advice of the Cabinet, may specify. *(Amended by Act 9 of 2011)*

Power to require information from importers

7. (1) The Comptroller of Customs and Excise may require the importer of any goods to state such facts concerning the goods and their history as he may think necessary to determine whether the goods are goods originating in a country specified in an order under this Act or are goods exported from any country and to furnish him in such form as he may require with proof of any statements so made; and if such proof is not furnished to his satisfaction or the required facts are not stated, the goods shall be deemed for the purposes of this Act to have originated in, or as the case may be, to have been exported from, such country as he may determine:

Provided that, the Comptroller of Customs and Excise require proof of the country in which goods originated in relation to any duty under this Act in the case only of goods exported from such countries as the Governor acting on the advice of Cabinet may direct in relation to that duty.

(Amended by Act 9 of 2011)

(2) Where an order under this Act limits the description of goods in respect of which duty is chargeable under this Act or the cases in which duty is so chargeable so that the question whether any and if so what duty is chargeable on the goods depends on other matters besides the country in which the goods originated or from which they were exported, the Comptroller of Customs and Excise may also require the importer to state such facts as he may think necessary to determine that question so far as regards those other matters and to furnish them in such form as he may require with proof of any statement so made; and if such proof is not furnished to his satisfaction or the required facts are not stated, those facts

shall be deemed for the purposes of duty under this Act to be such as he may determine.

Ascertainment of export price

8. In relation to goods imported into Montserrat the export price from the country in which the goods originated or from which they were exported shall be determined as follows—

- (a) if the goods are imported under a contract of sale which is a sale in the open market between buyer and seller independent of each other and the Governor, acting on the advice of the Cabinet, is satisfied as to that fact, as to the price on that sale and as to such other facts as are material for this purpose, the export price shall be the price on that sale subject to a deduction for the cost of insurance and freight from the port or place of export in the said country to the port or place of import, and for any other costs, charges or expenses incurred in respect of the goods after they left the port or place of export, except so far as any such costs, charges or expenses have to be met separately by the purchaser;
- (b) if paragraph (a) does not apply, the Governor, acting on the advice of the Cabinet, shall determine the export price by reference to such sale of the goods (or of any goods in which the first-mentioned goods were incorporated) as he may select with such adjustments as may appear to him to be proper. (*Amended by Act 9 of 2011*)

Ascertainment of fair market price

9. The fair market price of any goods in a country shall for the purposes of this Act be determined as follows—

- (a) subject to the next following paragraph, the fair market price shall be taken to be the price at which goods of the description in question (that is to say, any identical or comparable goods) are being sold in the ordinary course of trade in the said country for consumption or use there, but subject to any necessary adjustments whether for differences in conditions and terms of sale, for differences in taxation or otherwise, which may be required for the purpose of ensuring that the comparison between the fair market price and the export price is effectively a comparison between the prices on two similar sales;
- (b) if it appears to the Governor, acting on the advice of the Cabinet, that goods of that description are not being sold in the said country, or not in such circumstances that the fair market price can be determined in accordance with paragraph (a), the fair market price shall be determined by the Governor, acting on the advice of the Cabinet, by reference

to any price obtained for goods of that description when exported from the said country, with adjustments made for the purpose mentioned in paragraph (a) or, if the Governor, acting on the advice of the Cabinet, thinks fit, by reference to the cost or estimated cost of production of the goods the dumping of which is in question, with such additions in respect of selling cost and profit as may appear to the Governor, acting on the advice of the Cabinet, to be proper;

- (c) no account shall be taken under this section of any application of restrictions or charges on the export of materials from any country so as to favour producers in that country who use those materials in goods produced by them.

Construction of references to country of origin, etc.

10. (1) Goods shall be regarded for the purposes of this Act as having originated in a country—

- (a) if those goods were wholly produced in that country; or
- (b) if some stage in the production of the goods was carried out in that country and the cost of carrying out such stages, if any, in the production of the goods as were carried out after those goods last left that country (but before the import of the goods into Montserrat) was less than 25% of the cost of production of the goods as so imported; or
- (c) if some stage in the production of any components or materials incorporated in the goods was carried out in that country and the cost of carrying out such stages in production as were carried out after those components or materials last left that country to convert those components or materials into the goods as imported into Montserrat was less than 25% of the cost of production of the goods as so imported.

(2) Where the export price of any goods from the country in which they originated is in question and some stage in the production of the goods, or of any components or materials incorporated in the goods, was carried out after they last left that country, the deductions to be made by the Governor, acting on the advice of the Cabinet, in the price by reference to which the export price is to be ascertained shall include a deduction for the cost of carrying out any such stage in the production of the goods and in the production of any components or materials incorporated in the goods; and the fair market price shall be the fair market price of those goods or, as the case may be, of those components or materials in the state in which they left that country. *(Amended by Act 9 of 2011)*

(3) Any reference in this Act to the country in which goods originated shall be taken, in a case where there are two or more countries which answer to that description, as a reference to any of those countries.
